

Past Performance Information

Blackstone European Property Income Fund S.L.P. (“Blackstone Bepimmo”)

This document provides you with information about Blackstone Bepimmo’s past performance. It is not a marketing material.

FundRock France AM S.A.S. (the “AIFM”) is required to produce and publish this document by Regulation (EU) 1286/2014 of the European Parliament and the Council on Key Information Documents for Packaged Retail and Insurance-based Investment Products (the “Regulation”). The AIFM is required to follow the Regulation’s prescribed methodology in preparing the document. Performance is shown for share-classes from the date they have accepted third party capital (“Inception Date”). Share-classes with no third -party capital are not shown here.

Past Performance of Full Calendar Years

This chart shows the performance of Classes INS-A, A-A and A-D of Blackstone Bepimmo as the percentage loss or gain per year over the last three years. Class-INS-A’s first full calendar year of actual past performance data starts in 2022 and past performance data is therefore shown as from that year for that unit class. Classes A-A and A-D’ first full calendar year of actual past performance data starts in 2023 and past performance data is therefore shown as from that year for those unit classes. Past performance does not predict future returns. Markets could develop very differently in the future. It can help you to assess how Blackstone Bepimmo has been managed in the past. Performance is shown after deduction of ongoing charges. Any entry and exit charges are excluded from the calculation.

Class INS-A

Class A-A

Class A-D

Incorporation date of Blackstone Bepimmo: 20 July 2021

Inception dates: Class INS-A: 1 December 2021, Class A-A: 1 July 2022, Classe A-D: 1 August 2022

Performance Calculation Currency: EUR

This performance is calculated based on the net asset value of the relevant unit class and assuming that any distributable income of the relevant unit class has been re-invested into the relevant unit class. Total Net Return represents aggregated distributions plus change in NAV of Blackstone Bepimmo over a period, net of all applicable fees and expenses. The “Reference Period” is the year ending December 31, subject to pro-rating for partial years. In accordance with PRIIPs, excludes share classes without a full calendar year of performance, due to insufficient data to provide useful indication of past performance to retail investors.

Monthly Performance Scenario Calculations

Class I-A-EUR, Blackstone European Property Income Fund S.L.P.

The AIFM is required to produce and publish monthly performance scenario calculations in accordance with Article 8(3) of Commission Delegated Regulation (EU) 2017/653, as amended. It is not marketing material.

Performance Scenarios⁽¹⁾

What you will get from your investment depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy, as applicable over the last 13 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. There is no minimum guaranteed return. You may face a loss of all or part of your investment. The monthly performance scenario calculations are based on an investment of EUR 10,000 and an illustrative recommended holding period of 8 years.

(1) Based on the thirteen-year performance of the following proxy: (A) for the period prior to Blackstone European Property Income Fund (Master) FCP ("BEPIF")'s launch in October 2021, Blackstone Bepimmo's parallel entity; (1) Pre-July 2015: INREV European ODCE Index net of fees and other costs; and (2) July 2015 - September 2021: weighted average (on a monthly basis) returns of (i) 90% in Blackstone's European Core+ funds based on Blackstone Property Partners Europe ("BPPE") and its predecessor separately managed accounts ("SMAs") and (ii) 10% in European real estate debt based on the ICE BofA Euro High Yield Index. For (2), management and performance fees payable to the fund sponsor reflect that of BEPIF. The INREV European ODCE Index, BPPE and the applicable SMAs calculate a quarterly NAV and, for the purposes of this document, the returns have been converted to monthly returns, assuming even performance across each month during the quarter, and not accounting for currency fluctuation in some SMAs with non-Euro exposure early in the life of those SMAs; (B) from October 2021 to December 2021, the actual performance of Blackstone European Property Income Fund SICAV, a BEPIF Lux feeder; and (C) since January 2022, Blackstone Bepimmo's actual performance.

(2) There is a time lag between the data used for the performance scenario calculations and the publication of this document due to the availability and required processing of such data. During this period there could be a material change to the performance of the relevant unit class from what it is indicated in this document.

(3) Where performance calculations reveal a stress scenario to be more favourable than the unfavourable scenario, the stress scenario will be adjusted to match the unfavourable scenario.

(4) In accordance with regulatory requirements, performance scenario figures reported in monetary terms are rounded to the nearest 10 euro (or equivalent currency), and performance scenario indicators in percentages to one decimal place.

MONTHLY PERFORMANCE SCENARIO CALCULATIONS

Monthly Performance Scenario Calculations

Class I-A-EUR, Blackstone European Property Income Fund S.L.P.

The AIFM is required to produce and publish monthly performance scenario calculations in accordance with Article 8(3) of Commission Delegated Regulation (EU) 2017/653, as amended. It is not marketing material.

Performance Scenarios⁽¹⁾

What you will get from your investment depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy, as applicable over the last 12 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. There is no minimum guaranteed return. You may face a loss of all or part of your investment. The monthly performance scenario calculations are based on an investment of EUR 10,000 and an illustrative recommended holding period of 7 years.

(1) Based on the thirteen-year performance of the following proxy: (A) for the period prior to BEPIF's launch in October 2021, Blackstone Bepimmo's parallel entity; (1) Pre-July 2015: INREV European ODCE Index net of fees and other costs; and (2) July 2015 - September 2021: weighted average (on a monthly basis) returns of (i) 90% in Blackstone's European Core+ funds based on BPPE and its predecessor SMAs and (ii) 10% in European real estate debt based on the ICE BofA Euro High Yield Index. For (2), management and performance fees payable to the fund sponsor reflect that of BEPIF. The INREV European ODCE Index, BPPE and the applicable SMAs calculate a quarterly NAV and, for the purposes of this document, the returns have been converted to monthly returns, assuming even performance across each month during the quarter, and not accounting for currency fluctuation in some SMAs with non-Euro exposure early in the life of those SMAs; (B) from October 2021 to December 2021, the actual performance of Blackstone European Property Income Fund SICAV, a BEPIF Lux feeder; and (C) since January 2022, Blackstone Bepimmo's actual performance.

(2) There is a time lag between the data used for the performance scenario calculations and the publication of this document due to the availability and required processing of such data. During this period there could be a material change to the performance of the relevant unit class from what it is indicated in this document.

(3) Where performance calculations reveal a stress scenario to be more favourable than the unfavourable scenario, the stress scenario will be adjusted to match the unfavourable scenario.

(4) In accordance with regulatory requirements, performance scenario figures reported in monetary terms are rounded to the nearest 10 euro (or equivalent currency), and performance scenario indicators in percentages to one decimal place.

Monthly Performance Scenario Calculations

Class I-D-EUR, Blackstone European Property Income Fund S.L.P.

The AIFM is required to produce and publish monthly performance scenario calculations in accordance with Article 8(3) of Commission Delegated Regulation (EU) 2017/653, as amended. It is not marketing material.

Performance Scenarios⁽¹⁾

What you will get from your investment depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy, as applicable over the last 12 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. There is no minimum guaranteed return. You may face a loss of all or part of your investment. The monthly performance scenario calculations are based on an investment of EUR 10,000 and an illustrative recommended holding period of 7 years.

For (2), management and performance fees payable to the fund sponsor reflect that of BEPIF. The INREV European ODCE Index, BPPE and the applicable SMAs calculate a quarterly NAV and, for the purposes of this document, the returns have been converted to monthly returns, assuming even performance across each month during the quarter, and not accounting for currency fluctuation in some SMAs with non-Euro exposure early in the life of those SMAs; (B) from October 2021 to December 2021, the actual performance of Blackstone European Property Income Fund SICAV, a BEPIF Lux feeder; and (C) since January 2022, Blackstone Bepimmo's actual performance.
- (2) There is a time lag between the data used for the performance scenario calculations and the publication of this document due to the availability and required processing of such data. During this period there could be a material change to the performance of the relevant unit class from what it is indicated in this document.
- (3) Where performance calculations reveal a stress scenario to be more favourable than the unfavourable scenario, the stress scenario will be adjusted to match the unfavourable scenario.
- (4) In accordance with regulatory requirements, performance scenario figures reported in monetary terms are rounded to the nearest 10 euro (or equivalent currency), and performance scenario indicators in percentages to one decimal place.

MONTHLY PERFORMANCE SCENARIO CALCULATIONS

Monthly Performance Scenario Calculations

Class A-A-EUR, Blackstone European Property Income Fund S.L.P.

The AIFM is required to produce and publish monthly performance scenario calculations in accordance with Article 8(3) of Commission Delegated Regulation (EU) 2017/653, as amended. It is not marketing material.

Performance Scenarios⁽¹⁾

What you will get from your investment depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy, as applicable over the last 12 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. There is no minimum guaranteed return. You may face a loss of all or part of your investment. The monthly performance scenario calculations are based on an investment of EUR 10,000 and an illustrative recommended holding period of 7 years.

- (1) Based on the twelve-year performance of the following proxy: (A) for the period prior to BEPIF's launch in October 2021, Blackstone Bepimmo's parallel entity: (1) Pre-July 2015: INREV European ODCE Index net of fees and other costs; and (2) July 2015 - September 2021: weighted average (on a monthly basis) returns of (i) 90% in Blackstone's European Core+ funds based on BPPE and its predecessor SMAs and (ii) 10% in European real estate debt based on the ICE BofA Euro High Yield Index. For (2), management and performance fees payable to the fund sponsor reflect that of BEPIF. The INREV European ODCE Index, BPPE and the applicable SMAs calculate a quarterly NAV and, for the purposes of this document, the returns have been converted to monthly returns, assuming even performance across each month during the quarter, and not accounting for currency fluctuation in some SMAs with non-Euro exposure early in the life of those SMAs; (B) from October 2021 to December 2021, the actual performance of Blackstone European Property Income Fund SICAV, a BEPIF Lux feeder; and (C) since January 2022, Blackstone Bepimmo's actual performance.
- (2) There is a time lag between the data used for the performance scenario calculations and the publication of this document due to the availability and required processing of such data. During this period there could be a material change to the performance of the relevant unit class from what it is indicated in this document.
- (3) Where performance calculations reveal a stress scenario to be more favourable than the unfavourable scenario, the stress scenario will be adjusted to match the unfavourable scenario.
- (4) In accordance with regulatory requirements, performance scenario figures reported in monetary terms are rounded to the nearest 10 euro (or equivalent currency), and performance scenario indicators in percentages to one decimal place.

MONTHLY PERFORMANCE SCENARIO CALCULATIONS

Monthly Performance Scenario Calculations

Class A-D-EUR, Blackstone European Property Income Fund S.L.P.

The AIFM is required to produce and publish monthly performance scenario calculations in accordance with Article 8(3) of Commission Delegated Regulation (EU) 2017/653, as amended. It is not marketing material.

Performance Scenarios⁽¹⁾

What you will get from your investment depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy, as applicable over the last 11 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. There is no minimum guaranteed return. You may face a loss of all or part of your investment. The monthly performance scenario calculations are based on an investment of EUR 10,000 and an illustrative recommended holding period of 6 years.

Performance Scenarios⁽¹⁾

What you will get from your investment depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy, as applicable over the last 11 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. There is no minimum guaranteed return. You may face a loss of all or part of your investment. The monthly performance scenario calculations are based on an investment of EUR 10,000 and an illustrative recommended holding period of 6 years.

- (1) Based on the eleven-year performance of the following proxy: (A) for the period prior to BEPIF's launch in October 2021, Blackstone Bepimmo's parallel entity: (1) Pre-July 2015: INREV European ODCE Index net of fees and other costs; and (2) July 2015 - September 2021: weighted average (on a monthly basis) returns of (i) 90% in Blackstone's European Core+ funds based on BPPE and its predecessor SMAs and (ii) 10% in European real estate debt based on the ICE BofA Euro High Yield Index. For (2), management and performance fees payable to the fund sponsor reflect that of BEPIF. The INREV European ODCE Index, BPPE and the applicable SMAs calculate a quarterly NAV and, for the purposes of this document, the returns have been converted to monthly returns, assuming even performance across each month during the quarter, and not accounting for currency fluctuation in some SMAs with non-Euro exposure early in the life of those SMAs; (B) from October 2021 to December 2021, the actual performance of Blackstone European Property Income Fund SICAV, a BEPIF Lux feeder; and (C) since January 2022, Blackstone Bepimmo's actual performance.
- (2) There is a time lag between the data used for the performance scenario calculations and the publication of this document due to the availability and required processing of such data. During this period there could be a material change to the performance of the relevant unit class from what it is indicated in this document.
- (3) Where performance calculations reveal a stress scenario to be more favourable than the unfavourable scenario, the stress scenario will be adjusted to match the unfavourable scenario.
- (4) In accordance with regulatory requirements, performance scenario figures reported in monetary terms are rounded to the nearest 10 euro (or equivalent currency), and performance scenario indicators in percentages to one decimal place.

MONTHLY PERFORMANCE SCENARIO CALCULATIONS

Monthly Performance Scenario Calculations

Class INS-D-EUR, Blackstone European Property Income Fund S.L.P.

The AIFM is required to produce and publish monthly performance scenario calculations in accordance with Article 8(3) of Commission Delegated Regulation (EU) 2017/653, as amended. It is not marketing material.

Performance Scenarios⁽¹⁾

What you will get from your investment depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy, as applicable over the last 13 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. There is no minimum guaranteed return. You may face a loss of all or part of your investment. The monthly performance scenario calculations are based on an investment of EUR 10,000 and an illustrative recommended holding period of 8 years.

- (1) Based on the eleven-year performance of the following proxy: (A) for the period prior to BEPIF's launch in October 2021, Blackstone Bepimmo's parallel entity: (1) Pre-July 2015: INREV European ODCE Index net of fees and other costs; and (2) July 2015 - September 2021: weighted average (on a monthly basis) returns of (i) 90% in Blackstone's European Core+ funds based on BPPE and its predecessor SMAs and (ii) 10% in European real estate debt based on the ICE BofA Euro High Yield Index. For (2), management and performance fees payable to the fund sponsor reflect that of BEPIF. The INREV European ODCE Index, BPPE and the applicable SMAs calculate a quarterly NAV and, for the purposes of this document, the returns have been converted to monthly returns, assuming even performance across each month during the quarter, and not accounting for currency fluctuation in some SMAs with non-Euro exposure early in the life of those SMAs; (B) from October 2021 to December 2021, the actual performance of Blackstone European Property Income Fund SICAV, a BEPIF Lux feeder; and (C) since January 2022, Blackstone Bepimmo's actual performance.
- (2) There is a time lag between the data used for the performance scenario calculations and the publication of this document due to the availability and required processing of such data. During this period there could be a material change to the performance of the relevant unit class from what it is indicated in this document.
- (3) Where performance calculations reveal a stress scenario to be more favourable than the unfavourable scenario, the stress scenario will be adjusted to match the unfavourable scenario.
- (4) In accordance with regulatory requirements, performance scenario figures reported in monetary terms are rounded to the nearest 10 euro (or equivalent currency), and performance scenario indicators in percentages to one decimal place.
