Performance Summary

Where you invest matters: we believe Blackstone Bepimmo's focus on logistics (~70% of the portfolio)⁽²⁾ in Europe's largest economies will continue to drive long-term performance. In addition, market rents are 12% above in-place rents, which should position Blackstone Bepimmo for continued cash flow growth,⁽¹⁾ and ~90% of liabilities are fixed-rate or hedged.⁽³⁾ Our hedges are in place to help mitigate the impact of higher interest rates on performance and may fluctuate in value month-to-month.

There can be no assurance that the Fund will achieve its objectives, pursue any particular theme, avoid substantial losses or effectively hedge inflation. Rental income is not guaranteed and there can be no assurance that rental income will continue to outpace or even keep pace with inflation.

When used in this document and unless otherwise specified or unless the context otherwise requires, references to the "Fund" should be read as references to Blackstone European Property Income Fund SICAV, Blackstone European Property Income Fund (Master) FCP and their parallel entities, such as Blackstone European Property Income Fund S.L.P. ("Blackstone Bepimmo"). The inception dates for Class INS-A and Class A-D units are December 1, 2021 and August 1, 2022, respectively. Class INS units are eligible to (i) insurance companies subscribing for their own accounts or as part of representing commitments in unit-linked life insurance and capitalisation contracts of their adherents and subscribers, and to (ii) such adherents, subscribers and beneficiaries of life insurance and capitalisation contracts in the context of remittance of units. Class A units are available to all other investors. Please refer to the LPA for further information. See "Key Risk Factors" and "Important Disclosure Information", including "Logos". Investor eligibility requirements and minimum subscription amounts apply.

- (1) Blackstone proprietary data. Any expectations that in-place rents have the potential to increase are based on certain assumptions that may change and do not constitute forecasts. Such growth potential is hypothetical, provided for informational purposes only, and does not represent the actual or estimated future performance of Blackstone Bepimmo. Please refer to the Glossary for further information.
- (2) Sector breakdown by GAV at Fund share, excluding debt investments.
- (3) Fixed-rate or hedged liabilities includes debt that has been swapped from floating to fixed-rate (inclusive of forward-starting swaps), interest rate caps and matched debt.
- (4) Inception to date net return for Class INS-A has been annualized following 12 months of performance.
- (5) Dividends are incorporated into the Total Net Return of the applicable unit class. Accumulation Sub-Class Units will, in lieu of receiving cash distributions, have any such amounts reflected in their respective NAV per unit.

Your capital is at risk and you may lose some or all of the capital you invest. The ongoing charges are the fees charged to investors to cover the costs of running the Fund. Additional costs, including transaction fees, will also be incurred and may be incurred in additional currencies meaning that payments may increase or decrease as a result of currency exchange fluctuations. Where costs are paid out by the Fund, this will impact on the overall return of the Fund.

Note: The information above is presented as a summary of certain principal terms only and is qualified in its entirety in the LPA. Please refer to the LPA and to the KID before making any final investment decisions. Capitalized terms used but not defined have the meanings set forth in the LPA. Organizational and Offering Expenses have been advanced by Blackstone through the first year. After Blackstone Bepimmo's first anniversary, Blackstone Bepimmo will reimburse the Organizational and Offering Expenses incurred ratably over the following five years. Blackstone Bepimmo bears all expenses of its operations.

(1) If you make a decision to invest, you will be buying units in Blackstone Bepimmo and will not be investing directly in the underlying assets.

(2) The Fund will not pay additional management or performance fees on its investments in Blackstone's open-ended European Core+ fund for institutional investors.

(3) Please also refer to the "What Are the Costs?" section of the Key Information Document for a further display on the impact of the costs and charges which investors will pay and how this may impact investment returns which investors may get.

Glossary

The following are explanations of terms used in this report. These definitions are not exhaustive and are intended as a guide only. Please refer to the LPA and KID for further details.

Alternative Investment Fund Manager (AIFM)	FundRock France AM S.A.S. in its capacity as alternative investment fund manager of Blackstone Bepimmo
Blackstone Bepimmo	Blackstone European Property Income Fund S.L.P., a specialised professional fund, in the form of a <i>société de libre partenariat</i> (S.L.P.) governed by Articles L. 214-162-1 et seq. of the French Monetary and Financial Code
BREEAM (Building Research Establishment Environmental Assessment Method)	a method of assessing, rating, and certifying the sustainability of buildings through the design, specification, construction and operation phases; please refer to the BREEAM website for further details
Catch-Up	100% of the Total Return to be allocated to the Recipient once the Hurdle Rate has been reached until the Performance Fees equal 12.5% of the Total Return
Core+	a real estate investment strategy characterized by substantially stabilized real estate with a long investment horizon, moderate leverage and potential capital appreciation through focused asset management
Dividend Yield	calculated based on annualizing the actual monthly dividend yields since Blackstone Bepimmo's first distribution in August 2022, which represents the dividend distributed over the prior month's Fund NAV plus subscriptions in the current month
Embedded Rent Growth Potential	represents the estimated embedded rent growth potential between the Fund's in-place portfolio rents and achievable market rents for direct real estate investments. Direct real estate investments are subject to periodic rent reviews over time. Embedded rent growth potential is calculated by dividing the prevailing portfolio market rents by the existing in-place rents
Exit Cap Rate	yield used to estimate the value of a property or portfolio at the end of the expected holding period. The projected 1-year forward net operating income (NOI) at the end of the holding period is divided by the exit cap rate to get the terminal value, before deducting transaction costs. Exit cap rates are estimated based on a variety of factors, including a particular property's attributes and market supply and demand fundamentals
Fixed-Rate or Hedged Liabilities	a liability, such as a loan or a mortgage, which has a fixed or hedged interest rate for the entire term or a specified part of its term. Fixed-rate liabilities are commonly used to provide greater certainty of interest payments. In addition, interest rates can be "hedged" (i.e. by using derivative instruments such as interest rate swaps with the intention of reducing the risk of adverse interest rate movements) or "matched" (i.e. by matching floating-rate loans to floating-rate assets) as a risk management tool
Fund	refers to the fund complex as whole, including Blackstone European Property Income Fund SICAV, Blackstone European Property Income Fund (Master) FCP and their parallel entities, such as Blackstone Bepimmo
Geographic Allocation	reflects the geographic breakdown by percentage of Gross Asset Value including underlying investments within Blackstone's open-ended European Core+ fund for institutional investors, excluding debt investments. Totals may not sum due to rounding
Gross Asset Value (GAV)	measured as the fair value of (i) real estate investments at Fund share, plus (ii) real estate debt investments. "Real estate investments" is comprised of the Fund's majority-controlled property investments, the Fund's look-through share of property investments held by Blackstone's open-ended European Core+ fund for institutional investors and equity in minority investments
High Water Mark	measure used to ensure that the Performance Fees are only charged after the Fund recoups any losses from prior Reference Periods

Glossary (cont'd)

Hurdle Rate	a 5% annualized internal rate of return on the NAV over a Reference Period. This excludes, among other things, any units redeemed during the period. The Hurdle Rate represents a level of return that the Fund must achieve before the Performance Fees are payable
Inception to Date (ITD) Total Net Return	the annualized Total Net Return of Blackstone Bepimmo since the date on which it first accepted subscriptions and commenced operations
Inflation-Linked Leases	a lease agreement linked to an inflation index, commonly used as an alternative to open market rent reviews. Rents from these contracts increase / decrease in line with increases / decreases in the contractual inflation index, sometimes as a percentage of inflation or with a contractual maximum and minimum increase for each indexation event. Typically, leases are indexed annually or once the inflation index has reached a certain threshold
Investment Allocation	measured as the Gross Asset Value of each investment category divided by the total Gross Asset Value of all investment categories
LEED (Leadership in Energy and Environmental Design)	an internationally recognized green building rating system; please refer to the LEED website for further details
Loan to Value	leverage is the use of borrowed capital in an effort to increase the potential return of an investment. Loan to Value is calculated as the amount of borrowed capital net of cash divided by the Gross Asset Value. Loan to Value would be higher if the pro rata share of debt for minority investments were included. The use of borrowed capital is likely to increase any losses. Furthermore, fees associated with borrowing may impact fund performance. See the LPA for information on the Blackstone Bepimmo Leverage Ratio
Management Fees	fees payable each month to the investment manager or an affiliate of the investment manager of the Fund for managing the Fund's investments
Mark-to-Market	accounting method used to measure the fair value of securities, hedges or swaps based on current market pricing. Mark-to-market aims to provide a realistic appraisal of securities', hedges' or swaps' current market value, which can fluctuate over time
Net Asset Value (NAV)	represents the value of the Fund's assets, minus the Fund's liabilities as well as expenses attributable to certain unit classes, such as servicing fees, in all cases as described in the LPA and determined in accordance with the Valuation Policy
Net Operating Income (NOI)	operating revenues less operating expenses
Performance Fees	fees payable from the Fund to the Recipient (as defined in the LPA) if it outperforms the Hurdle Rate
Real Estate Debt	fixed income investment securities or loans that are generally secured by or otherwise related to real estate
Rebate	amounts paid to the financial intermediary advising or selling the Fund to an investor or to the insurance company offering the units as unit-linked securities in life insurance or other types of insurance contracts
Redemption	takes place when an investor redeems some or all of its units
Reference Period	the year ending December 31, subject to pro-rating for partial years
Sector Allocation	reflects the sector breakdown by percentage of Gross Asset Value including underlying investments within Blackstone's open-ended European Core+ fund for institutional investors, excluding debt investments. "Other" includes the Arch Company, residential, luxury retail and other assets which are owned by Blackstone's open-ended European Core+ fund for institutional investors. Totals may not sum due to rounding

Glossary (cont'd)

Subscription Fees	fees payable to financial intermediaries by an investor when entering their investment in Blackstone Bepimmo
Total Net Return	the aggregated distributions plus change in NAV of Blackstone Bepimmo over a Reference Period, net of all applicable fees and expenses
Trailing 1-Year Total Net Return	the Total Net Return of Blackstone Bepimmo from the past 12 consecutive months
Year to Date (YTD) Total Net Return	the Total Net Return of Blackstone Bepimmo since the beginning of the Reference Period
Year-over-Year (YoY)	year-over-year growth compares recent metric with metric for the same period one year earlier

Key Risk Factors

Capitalized terms used herein but not otherwise defined have the meanings set forth in LPA.

Risk Indicator

Under the Packaged Retail and Insurance-based Investment Products (PRIIPs) Regulation, we have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions could impact our capacity to pay you. There is no specific recommended holding period for the product. The actual risk can vary significantly. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts how much you get back. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The attention of potential investors is drawn to the risks to which any investor is exposed by investing in Blackstone Bepimmo. Potential investors should pay particular attention to the risks described in the dedicated section of the Limited Partnership Agreement (LPA) and Key Information Document (KID). In making an investment decision, investors must rely on their own examination of Blackstone Bepimmo and the terms of the offering, including the merits and risks involved. Potential investors should not construe the contents of this LPA as legal, tax, investment or accounting advice.

The following is a summary description of the principal risks of investing in Blackstone Bepimmo. The order of the below risk factors does not indicate the significance of any particular risk factor. **Complete information on the risks of investing in Blackstone Bepimmo is set out in the LPA.**

Risk of Capital Loss and No Assurance of Investment Return. Blackstone Bepimmo offers no capital protection guarantee. This investment involves a significant risk of capital loss and should only be made if an investor can afford the loss of its entire investment. There are no guarantees or assurances regarding the achievement of investment objectives or performance. This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose some or all of your investment. A fund's performance may be volatile. An investment should only be considered by sophisticated investors who can afford to lose all or a substantial amount of their investment. A fund's fees and expenses may offset or exceed its profits. In considering any investment performance information contained in the document and related materials ("the Materials"), **recipients should bear in mind that past performance is not necessarily indicative of future results.**

Lack of Liquidity. There is no current public trading market for the units, and Blackstone does not expect that such a market will ever develop. Therefore, redemption of units by Blackstone Bepimmo will likely be the only way for you to dispose of your

units. Blackstone Bepimmo expects to redeem units at a price equal to the applicable net asset value as of the redemption date and not based on the price at which you initially purchased your units. Units redeemed within one year of the date of issuance will be redeemed at 95% of the applicable net asset value as of the redemption date, unless such deduction is waived by Blackstone Bepimmo in its discretion, including without limitation in case of redemptions resulting from death, qualifying disability or divorce. As a result, you may receive less than the price you paid for your units when you sell them to Blackstone Bepimmo pursuant to Blackstone Bepimmo's redemption program.

The vast majority of Blackstone Bepimmo's assets are expected to consist of real estate properties and other investments that cannot generally be readily liquidated without impacting Blackstone Bepimmo's ability to realize full value upon their disposition. Therefore, Blackstone Bepimmo may not always have a sufficient amount of cash to immediately satisfy redemption requests. As a result, your ability to have your units redeemed by Blackstone Bepimmo may be limited and at times you may not be able to liquidate your investment.

Concentration. The Fund's investment strategy is substantially concentrated in the real estate sector and its performance will therefore be closely tied to the performance of this sector which has historically experienced substantial price volatility. The Fund's concentration in the real estate sector may present more risks than if it were broadly diversified over numerous industries and sectors of the economy.

Conflicts of Interest. There may be occasions when the fund manager and its affiliates will encounter potential conflicts of interest in connection with Blackstone Bepimmo's activities including, without limitation, the allocation of investment opportunities, relationships with Blackstone's and its affiliates' investment banking and advisory clients, and the diverse interests of Blackstone Bepimmo's investors.

Exchange Currency Risk. Blackstone Bepimmo is denominated in Euro (EUR). Unitholders holding units with a functional currency other than Euro acknowledge that they are exposed to fluctuations of the Euro foreign exchange rate and/or hedging costs, which may lead to variations on the amount to be distributed. This risk is not considered in the indicator shown above. Fund charges will be incurred in multiple currencies, meaning that payments may increase or decrease as a result of currency exchange fluctuations.

Highly Competitive Market for Investment Opportunities. The activity of identifying, completing and realizing attractive investments is highly competitive, and involves a high degree of uncertainty. There can be no assurance that the Fund will be able to locate, consummate and exit investments that satisfy its objectives or realize upon their values or that the Fund will be able to fully invest its committed capital. There is no guarantee that investment opportunities will be allocated to the Fund and/or that the activities of Blackstone's other funds will not adversely affect the interests of the Fund.

Real Estate Investments. The Fund's investments do and will consist primarily of real estate investments and real estate-related investments. All real estate investments are subject to some degree of risk. For example, real estate investments are relatively illiquid and, therefore, will tend to limit Blackstone's

Key Risk Factors (cont'd)

ability to vary the Fund's portfolio promptly in response to changes in economic or other conditions. No assurances can be given that the fair market value of any real estate investments held by the Fund will not decrease in the future or that the Fund will recognize full value for any investment that the Fund is required to sell for liquidity reasons. Deterioration of real estate fundamentals generally may negatively impact the performance of the Fund. In addition, the Fund may be subject to more specific risks relating to inter alia the residential, commercial or the industrial real estate sectors.

Recent Market Events Risk. Local, regional, or global events such as war (e.g., Russia/Ukraine), acts of terrorism, public health issues like pandemics or epidemics (e.g., COVID-19), recession, or other economic, political and global macro factors and events could lead to a substantial economic downturn or recession in the U.S. and global economies and have a significant impact on the Fund and its investments. The recovery from such downturns is uncertain and may last for an extended period of time or result in significant volatility, and many of the risks discussed herein associated with an investment in the Fund may be increased.

Reliance on Key Management Personnel. The success of the Fund will depend, in large part, upon the skill and expertise of certain Blackstone professionals. In the event of the death, disability or departure of any key Blackstone professionals, the business and the performance of the Fund may be therefore adversely affected. Some Blackstone professionals may have other responsibilities, including senior management responsibilities, throughout Blackstone and, therefore, conflicts are expected to arise in the allocation of such personnel's time (including as a result of such personnel deriving financial benefit from these other activities, including fees and performance-based compensation).

Sustainability Risks. Blackstone Bepimmo may be exposed to an environmental, social or governance event or condition that, if it occurs, could have a material adverse effect, actual or potential, on the value of the investments made by Blackstone Bepimmo. Sustainability risks are assessed into investment decisions relating to Blackstone Bepimmo.

Target Allocations. There can be no assurance that the Fund will achieve its objectives or avoid substantial losses. Allocation strategies and targets depend on a variety of factors, including prevailing market conditions and investment availability. There is no guarantee that such strategies and targets will be achieved and any particular investment may not meet the target criteria.

Use of Leverage. The Fund may borrow money. If returns on such investment exceed the costs of borrowing, investor returns will be enhanced. However, if returns do not exceed the costs of borrowing, Fund performance will be depressed. This includes the potential for the Fund to suffer greater losses than it otherwise would have. The effect of leverage is that any losses will be magnified. The use of leverage also exposes the Fund to the risk of an increase in interest rates.

Important Disclosure Information

This document may not be relied on in any manner as legal, tax, investment, accounting or other advice or as an offer to sell, or a solicitation of an offer to buy any security or instrument in or to participate in any trading strategy with any Blackstone fund,

account or other investment vehicle, nor shall it or the fact of its distribution form the basis of, or be relied on in connection with, any contract or investment decision. All information is as of April 30, 2023, unless otherwise indicated and may change materially in the future.

Case Studies. The selected investment examples, case studies and/or transaction summaries presented or referred to herein may not be representative of all transactions of a given type or of investments generally and are intended to be illustrative of the types of investments that have been made or may be made by the Fund in employing the Fund's investment strategies. It should not be assumed that the Fund will make equally successful or comparable investments in the future. Moreover, the actual investments to be made by the Fund or any other future fund will be made under different market conditions from those investments presented or referenced in the Materials and may differ substantially from the investments presented herein as a result of various factors. Prospective investors should also note that the selected investment examples, case studies and/or transaction summaries presented or referred to herein have involved Blackstone professionals who will be involved with the management and operations of the Fund as well as other Blackstone personnel who will not be involved in the management and operations of the Fund. Certain investment examples described herein may be owned by investment vehicles managed by Blackstone and by certain other third-party equity partners, and in connection therewith Blackstone may own less than a majority of the equity securities of such investment. Further investment details are available upon request.

Diversification; Potential Lack Thereof. Diversification is not a guarantee of either a return or protection against loss in declining markets. The number of investments which the Fund makes may be limited, which would cause the Fund's investments to be more susceptible to fluctuations in value resulting from adverse economic or business conditions with respect thereto. There is no assurance that any of the Fund's investments will perform well or even return capital; if certain investments perform unfavorably, for the Fund to achieve above-average returns, one or a few of its investments must perform very well. There is no assurance that this will be the case. In addition, certain geographic regions and/or industries in which the Fund is heavily invested may be more adversely affected from economic pressures when compared to other geographic regions and/or industries.

ESG. ESG initiatives described in these Materials related to Blackstone's portfolio, portfolio companies, and investments (collectively, "portfolio companies") are aspirational and not guarantees or promises that all or any such initiatives will be achieved. Statements about ESG initiatives or practices related to portfolio companies do not apply in every instance and depend on factors including, but not limited to, the relevance or implementation status of an ESG initiative to or within the portfolio company the nature and/or extent of investment in, ownership of, control or influence exercised by Blackstone with respect to the portfolio company and other factors as determined by investment teams, corporate groups, asset management teams, portfolio operations teams, companies, investments, and/or businesses on a case by case basis. In particular, the ESG initiatives or practices described in these

Materials are less applicable to or not implemented at all with respect to Blackstone's public markets investing businesses, specifically, Credit, Hedge Fund Solutions (BAAM) and Harvest. In addition, Blackstone will not pursue ESG initiatives for every portfolio company. Where Blackstone pursues ESG initiatives for portfolio companies, there is no guarantee that Blackstone will successfully enhance long term shareholder value and achieve financial returns. There can be no assurance that any of the ESG initiatives described in these Materials will exist in the future, will be completed as expected or at all, or will apply to or be implemented uniformly across Blackstone business units or across all portfolio companies within a particular Blackstone business unit. Blackstone may select or reject portfolio companies or investments on the basis of ESG related investment risks, and this may cause Blackstone's funds and/or portfolio companies to underperform relative to other sponsors' funds and/or portfolio companies which do not consider ESG factors at all or which evaluate ESG factors in a different manner. Any selected investment examples, case studies and/or transaction summaries presented or referred to in these Materials are provided for illustrative purposes only and should not be viewed as representative of the present or future success of ESG initiatives implemented by Blackstone or its portfolio companies or of a given type of ESG initiatives generally. There can be no assurances that Blackstone's investment objectives for any fund will be achieved or that its investment programs will be successful. Past performance is not a guarantee of future results. While Blackstone believes ESG factors can enhance long term value, Blackstone does not pursue an ESG based investment strategy or limit its investments to those that meet specific ESG criteria or standards, except with respect to products or strategies that are explicitly designated as doing so in their offering documents or other applicable governing documents. Any such considerations do not qualify Blackstone's objectives to maximize risk adjusted returns. Some, or all, of the ESG initiatives described in these materials may not apply to the Fund's investments and none are binding aspects of the management of the assets of the Fund. Blackstone Bepimmo does not promote environmental or social characteristics, nor does it have sustainable investments as its objective. A decision to invest should take into account the objectives and characteristics of Blackstone Bepimmo as set out in more detail in the LPA, which can be accessed at Bepimmo.com. Further information can be found at blackstone.com/european-overview.

Forward-Looking Statements. Certain forward-looking statements, including financial projections and estimates and statements regarding future performance, are inherently uncertain and there may be important factors that could cause actual outcomes or results to differ materially from those indicated in such statements. Blackstone undertakes no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

French 3% Tax. It is expected that Blackstone Bepimmo will own real estate assets in France and therefore fall within the scope of the French 3% tax provided under Article 990 D of the French tax code, as more particularly described in the LPA. Potential investors which are not an individual investing directly in Blackstone Bepimmo and for its own benefit (and not as a nominee, agent or trustee for another) are strongly urged to

obtain advice from their own tax advisers regarding their ability and the ability of each of their Upstream Entities to rely on an exemption from such tax. "Upstream Entity" means, in relation to an investor in Blackstone Bepimmo, each and every entity holding direct or indirect interests in that investor (including without limitation a beneficiary, beneficial owner, legal owner, trustee or settler of a trust, a fiduciary or any similar arrangement). Your financial advisor may contact you for your consent to share information with Blackstone Bepimmo to fulfil the requirements under Article 990 D of the French tax code, where determined to be relevant. Please see the LPA for additional details.

French Real Estate Wealth Tax. It is expected that Blackstone Bepimmo will directly or indirectly own real estate assets and therefore its shares or units (as applicable) will fall within the scope of the French real estate wealth tax, as more particularly described in the LPA. Potential investors (including non-residents for French tax purposes) are strongly urged to obtain advice from their own tax advisers regarding their position with respect to French real estate wealth tax.
